Craft the Driving Question

State the essential question or problem statement for the project. The statement should encompass all project content and outcomes, and provide a central focus for student inquiry.

How does learning number sense help solve addition and subtraction problems?

Sub Questions:

What are other words for addition and subtraction?
Can I verbally explain how I solved this addition or subtraction problem?
Can we create a story depicting addition and subtraction problems?
Use manipulatives to demonstrate number sense?

- Have you posed an authentic problem or significant question that engages students and requires core subject knowledge to solve or answer?
