Manage the Process

List preparations necessary to address needs for differentiated instruction for ESL students, special-needs students, or students with diverse learning styles.

There are 3 first grade classes:
One class is a transitional bilingual class I will need to create groups of English speakers and Spanish Speakers. Request the assistance of the classroom teacher to create one or two Spanish books.

One class is a fully included classroom and contains all students with IEPs and special needs (Max 8). Plan on scheduling additional parental assist for this class. The majority of IEP students will need additional direction and reinforcement during manipulative activity. Possibly schedule the occupational therapist to assist in computer lab.

One class is a heterogeneous mix of high to low levels learners and groups will be created to reflect the variety learning abilities within this class.

For all classes: using the interactive web sites as a learning center in the classroom will help the learning process. In addition using the same site in the computer lab with the whole class can help students work in groups and assist each other with understanding.

How will you and your students reflect on and evaluate the project?

☐ Class discussion – Create a two column chart and list what students liked and disliked about the project.

☐ Fishbowl

☐ Student-facilitated formal debrief

☒ Teacher-led formal debrief – Interview class how they can use their new skills in other subject areas.

☐ Student-facilitated formal debrief

☒ Individual evaluations – A brainstorming session will be conducted to help students complete the End of Product Self-Assessment evaluation.

☒ Group evaluations – A brainstorming session will be conducted to help students complete the Group Contribution Self-Assessment evaluation.
