**Relief Printing**

1. Lay out the ink.
   - On a piece of plexiglass place one streak of ink the width of the brayer.

2. Even out the ink.
   - Evenly roll out the ink vertically and horizontally, keeping it in one small rectangle.

3. Roll up the block.
   - Roll ink onto the block evenly both vertically and horizontally. Roll the brayer in more ink if needed.
