Introduction: Define/describe assistive technology and explain why it is important for educators to be familiar with these tools and resources (4-5 sentence paragraph).

Assistive Technology Resources: Create a list of 5 - 7 online resources. Include the following information for each website on your list. If the sponsor of the website is not immediately obvious, you may be able to find additional information about who is responsible for the content contained on the website by looking for an About link on the site. When evaluating the reliability of a website, it is always important to know who is providing the information.

Include this information for each website on your list:

1) Name of Organization sponsoring the website (who is responsible for the content contained on the site)
   Website Name:
   URL:
   Description of Website:
   Reason for choosing this website for your assistive technology website collection:

Note: Once your document is complete, upload it to your Portfolio Files page and link it to your Standard 4 page. This is a required portfolio artifact and you will receive credit for this activity when your portfolio is scored at the end of the term.
